

SALESIAN COLLEGE CELBRIDGE
MEDICAL INFORMATION FORM
2017-2018

Dear Parent / Guardian,

- As a school we endeavour to be prepared for any possible incidents related to the health and safety of our students, however we cannot pre-empt every possible scenario.
- You are requested to fill in this form with as much information as is required by the school should there be a medical emergency and there are specific medical instructions necessary.
- In sharing this information with the school, it is accepted that the school will endeavour to follow the instructions as best we can however in an emergency situation, obviously this cannot be guaranteed. Our members of staff are not trained medical experts or practitioners. In accordance with good practice we will not give students any medication, we will only administer first aid assistance as required.
- If your son has a medical issue which requires the use of an EpiPen for example, we would request that your son is responsible for having this on his person, or in his bag whichever is appropriate given his particular condition.
- Please fill in this form and return it in an envelope for the attention of your son's tutors.

Name of Student: _____

Year: _____ Class: _____
