

Dear student,

You are about to make a very important decision, namely, Subject Choice for the Leaving Certificate. To make a good, informed decision it is essential that you have the information that you need, so in Salesian College we have arranged the following for you:

- Individual Subject Department Presentations
- Career classes on Subject Choice
- An information session on how to use the relevant ICT in your research and assistance for independent research.
- An evening information meeting for parents/ guardians
- Individual career appointments if required

We also recommend that you do the following:

- Give all the presentations and information sessions your full attention
- Discuss your potential choices with your subject teachers. They are experts in their subject areas and will be able to give you essential information on the Leaving Certificate curriculum.
- The information given to you on Subject Choice should be reflected on very carefully. Most of the work on choosing subjects however can only be done by you, through considered reflection, thorough research, asking questions and in particular by discussing all this information at home with your parents/ guardians who can support you with your decisions..

Finally, when choosing your subjects keep the following guidelines in mind:

- Ensure that you are choosing subjects that will keep all your options open for Third Level education. Examine entry requirements, matriculation requirements, course specific entry requirements and levels carefully for any course or course area you may be interested in.
- Consider your own personal interests and aptitudes.
- Look at previous experiences and past achievements in specific subjects.
- Choose subjects you enjoy or have a genuine interest in.
- Research and give serious consideration to any decision that you make.

Best of luck

Ms Harris and Ms Dolan
