

23/02/2021

Dear parents/ Guardians,

We are writing to invite you to attend our online Subject Choice Information presentation **Monday March 8th at 7pm**. This talk will provide you with the key information which will help you to support your son in making this very important decision going into their Senior Cycle. Mr Kerins will also provide you with information on the night on how to access Subject Choice forms online and other relevant information for their completion.

Over the next few weeks, we will also be timetabling individual subject presentations, a presentation from the Guidance and Counselling Department on the implications of subject choice for Third Level and an ICT workshop which will enable students to access online information and the resources they will need when choosing a subject. There is an excellent range of information available online so we will be encouraging students to share and discuss all this information with you and you are also welcome to attend any of their scheduled talks/ workshops with them during the school day as well as attending the presentation on March 8th. All information can be found under the Guidance and Counselling tab on our school website and on your son's school Teams accounts so we would also encourage you to check the timetables and ensure they are present for all information sessions and classes. Choosing a subject can be a difficult decision and it is vital that parents and guardians are part of this process and that your sons speak with you about their preferences at this time and keep you informed of any decisions they make.

We look forward to seeing you all on the night and in the meantime should you have any questions please feel free to contact us at the school anytime. Thank you for your continued support,

Yours faithfully,

Mr M. Kerins

Deputy Principal

Ms M. Harris

Guidance Counsellor
